	Wallnest	Doublenest
Modul length	300 cm	300 cm
Modul height	167 cm	167 cm
Modul height two levels	220 cm	220 cm
Modul width	81 cm	148 cm
Nest length	150 cm	150 cm
Nest width	45 cm	45 cm
Egg belt width	25 cm	47 cm
Manure pit	Designed by project	Designed by project

- Perforated Astroturf nest pads allow all the dust and muck to fall away – to ensure cleaner eggs.
- Nest floors which raise up at night to close the nests, keeping the hens out of the nest in order to keep the nest pads cleaner.
- Individual lifting mechanism for each nest floor set, to maximise reliability.
- The entire nest is a very substantial construction and made to last.
- The design makes all our nests very easy to clean and keep possible insect hiding places to a minimum.
